When home is where the hurt is!

**'Late last night I heard that screen door slam,
And a big yellow taxi come and took away my old man!'*

**Joni Mitchell, Big Yellow Taxi, 1970.*

Many Suicides* happen because 'things' aren't right at home. Someone may have died or left, have a mental health, financial, gambling, drug or alcohol issue or addiction. There may be Domestic Violence*, relationship breakdown/separation, loss of home/access to children re Family Law etc, sex abuse – this list is endless!

Children*, including teenagers, are particularly vulnerable to sex abuse; they can so easily be overpowered, physically and emotionally. How would a 64-yo male sheep farmer know this? He got raped at age 15, in 1967.

Remember, if UR committing ANY kind of violence** to ANYONE or thinking about it, there is NEVER** any excuse for violent behaviour!

Every fridge in EVERY home should display these numbers* for ALL adults AND children* to see and use! They may save UR life, or someone else's!
