'**UCAN2!**'

Somewhere over the rainbow

Giving us **Hope**, Dreams and Happiness.

*"Somewhere over the rainbow, way up high
In the land that I heard of once, once in a lullaby,
Somewhere over the rainbow, skys are blue
And the dreams that U dare 2 dream, really do come true!"*

*Someday I'll wish upon a star and wake up
Where the clouds are far - behind me,
Where troubles melt like lemon drops,
Away above the chimney tops, that's where you'll find me..."*

Jeff Kennett once told me *'There is no life without hope.'**

*This song, written in 1938 for the *Wizard of Oz*, is ranked 'Greatest Movie song of all time'. I recently found restored footage on You Tube of Eva Cassidy's stunning 1996 rendition at the Blues Alley jazz supper club in Georgetown USA. Sadly she'd had a *Melanoma removed in 1994, but too late. On Nov 2, 1996, this beautiful, soul filled, gifted woman died. Age 33!

While Eva had one *'tap on the shoulder'*, I've had two. So far! My own *Malignant Melanoma removed 2009, and my competition squash induced Heart Attack* in 2013. Outcome all good, back on court but more quietly.

Just to show U can take a huge positive out of two huge negatives, these events made me realise how very attached I am to being alive, and just how beautiful life can be. But they also awakened a dream and a very great passion for keeping others alive and healthy too.

If I can make **my** dreams come true, **U CAN 2!**

*'If happy little bluebirds fly,
Above the rainbow - why - oh why can't I?'*
