Caring 4 U + UR Mental Health =

More + Better Sex!

**Love is all there is – it makes the world go round,
Love and only love it can't be denied,
No matter what we think about it, we just can't do without it,
Thake a tip from one who tried.**

- While long term relationships form the backbone of our Communities and are to be cherished, nurtured and supported...
- With around 40% of these breaking down - reality dictates that we live in a world of 'mix and match' and blended families. Our personal 'realities' may then be laced with **Conflict**, **Loss**, **Heartbreak** and **Trauma** - which can **ALL** lead to **Unhappiness** and **Suicide**...
- Using UR ****Doctor as a first port of call** for emotional issues, gives U more **time** and **opportunity** to 'enjoy'!
